HIS STOMACH TROUBLES OVER
 Mr. Nyeppelle, would you get like
 to feel that your stomach troubles
 were over, that you could eat any
 kind of food you desired without
 injury? That may seem so unlikely
 to you that you do not even hope for
 an ending of your trouble, but per-
 mit us to assure you that it is a
 altogether possible. If others can
 be cured permanently, and thousands
 have been, why not you? John B.
 Parker, of Battle Creek, Mich., is one
 of them. He says, "I was troubled
 with heartburn, indigestion, and liver
 complaint until I used Chamberlain's
 Tablets, then my trouble was over.
 Sold by all dealers."

Jury System Attacked
 In the opinion of the Bar Association
 of Ontario the jury system is dying out.
 It is a time-honored story for lawyers to
 point defects in the jury system. Like
 any other human institution it has its
 faults, but no system that was devised
 to take its place would also have its
 faults, unless, like the Book of Mormon
 people, we could be induced to believe
 that it was of supernatural origin. At
 present the proposed substitute is trial by
 the judge. The defects of this system are
 plain to lawyers than to anyone else.
 Who knows so well as the lawyer that
 one judge is severe, and that another is
 lenient, that one will send a man to peni-
 tentiary for an offence that another
 would bring up not in criticism. At
 this city we had the amusing spectacle
 of a judge sentencing to imprisonment a
 man whose home had been ruined by
 a boarder and who was later assassinated
 by the boarder, the judge having appar-
 ently got the identity of the two men
 mixed. Similarly we have a man con-
 victed of a cruel and brutal assault let
 off with a nominal fine. These mistakes
 are brought up not in criticism of our
 judges, who, as a body, command the
 respect of the community, but merely to
 show that legal training does not prevent
 a man from making serious mistakes.
 The public would listen with greater re-
 sponse to eminent lawyers and judges if
 at their annual gathering they would dis-
 cuss such questions as the intimidating
 of witnesses and the abuse of judicial
 power involved in the public testimony of
 jurists that do not return a verdict
 acceptable to the judge. These are evils
 that lawyers and judges can correct upon
 their own initiative. They do not require
 laws or even public co-operation to bring
 about reform, and they might get busy
 themselves with them.—Toronto Mail and
 Empire.

Public Spirit
 New village councillors as well as mu-
 nicipal councillors are just now entering
 upon the duties of their office. For 1914
 it would be in keeping with public
 sentiment to give a certain degree of
 credit to the spirit which prompts any
 private citizen to accept any public office
 and at the same time any person who
 allows himself to be elected as a repre-
 sentative of the people should do so with
 the avowed intention of enacting and
 supporting only such measures that will
 result in the greatest benefit to the great
 number. Anyone whose policy is not
 imbued by such a principle is a
 traitor to those who have imposed con-
 fidence in him and a detriment to the best
 interests of the community. Every pub-
 lic officer holder is subject to criticism;
 but the public is lenient and forgiving of
 unintentional errors and even errors of
 judgment. Let our councillors ever bear
 in mind that they are not acting for
 themselves but for the people, people
 not the outcasts. Many good citizens
 remain in private life through fear of
 criticism. This should not be, as it is
 every person's duty to best serve his
 country and his community.

Council Elected At Frank
 The election of councillors for
 the village of Frank took place on Mon-
 day, Messrs. Isaac Wilson, Frank Weir,
 Morgan, J. J. Thomas and W. J. Mc-
 Gowan being returned.
 The result of the polls was as
 follows: Wilson 42, Weir 40,
 McGowan 31, Evan Morgan 19,
 J. J. Thomas 16, which is very
 satisfactory.

Turned Down

Dear Mabel, he began, do you love me?

Oh, George!

Don't you, Mabel—just little, tiny bits?

Well, yes, George.

And if I married you would your father give us a separate establishment?

Yes, George.

And take me into partnership?

Yes, George.

And would your mother send away from us except when I invited her?

She would, George.

And would your sisters, too, be so kind?

Why certainly, George.

And of course the old gent would settle my debts.

Yes, George.

When Tied together
An Irish couple, whose married bliss was not without a few squalls, received a home-coming letter from their medical adviser regarding their disagreeable quarrels.
"I have a prescription," that drug and calumny have agreed better than you, and I have a prescription for you. If you reverence told him together you'd soon change your mind."
Minard's Liniments Cures Burns, Etc.
Dressed by Post

The Lincoln Highway
Toronto, Ont.—A. J. H. Ehrhardt, of 107 Lincoln street, has been selected by W. G. Robertson, secretary of the Ontario Motor League here, in charge of the Lincoln Highway, sending contributions to the national headquarters in Detroit, Michigan. He estimates that the Lincoln Highway will benefit Canadians far more than residents in many sections of the United States.

"I am writing the lines," says Mr. Ehrhardt, "to inform you that I have received from the Lincoln Highway Association a check for \$5 each from motor car owners to help build a highway from the Atlantic to the Pacific and asking: Will you please send me a check for the same price. I do not think there is a Canadian but who would appreciate making a trip to the United States on the Coast-to-coast highway. I myself have sent a cheque for \$5 and will take pleasure in riding over it some day."

Outside of that I appreciate the opportunity to subscribe to a fund in memory of such a grand man as Abraham Lincoln, who was, to my way of thinking, one of the greatest English speaking men ever born, the man who abolished slavery in America. Think how Canadians appreciate this Highway. A Georgian Bay, Ontario, Southern States, or Michigan or Minnesota have no more right to subscribe to the highway than Canadians. Another reason why Canadians should appreciate this high way is because it will be impossible for Canada to build a motor highway with

the foreign country to contend with the Green Party's "unfair" conditions that aren't the same in the United States.

It would like to see the Lincoln Highway Commission brought to the attention of the different motor clubs of Canada and I feel confident the Canadian people will look upon this subject in a very generous manner. Canadians will be much closer to this great highway than the average citizen of the United States," he is writing as a Canadian of the same generation, born within 18 miles of Toronto.

He Lost

A golfer noted for his meanness noticed that a strange lad was carrying his clubs.

—The boy I have usually

"No, sir, replied the lad; you see
 we trusted you'd be caddie for you.
 Oh, I see, said the golfer, and you
 won't."
 "No, answered the caddie, sorrow-
 fully, I lost."

 She was giving orders at express
 rate, for they were married; and he
 as a rule the most meek and submis-
 sive of men, was like the proverbial
 woman, beginning to turn.
 "Do you think, he inquired, that you
 are the best of the universe?"
 "No, she snipped, but I rule the
 first letter of it."

 Indolent
 "Is Jones lazy?"
 "Let me name for it. Why he'll
 go into a revolving door, and then
 wait for somebody to come in and
 turn it around."

Important Work being Carried on for

ible, the damage irremediable, and at the same time the extent of available resources becomes smaller in proportion to population, their consideration is finally much more important than those other questions of the day.

When, as is stated by experts, the coal of America is due to be exhausted within the next century, the oil and gas in this, the absolute necessity of preserving the rivers which hold at present our only other source of power stands as one of the prime duties of the nation.

Some 20 per cent. of the Dominion of Canada is fit for growing tree crops only. Wood enough to supply the nation for all time can be produced on these lands. At present they are to a great extent fire-swept, uncared for, unproductive. On these forest areas the forest must be maintained if this nation is to rise to its full de-

Canada is a democratic country. Our chief pride is the liberty of our people and the freedom of our institutions. On the will of the majority we must build our policy and development. The advance of the great movement for the economic handling of our forest resource will depend solely on the attitude of the Canadian people. It is true that the slogan 'As a man thinketh, so he is,' is so truly applicable as to the nation at the present time, if the Canadian people permit themselves to look on forests from destruction, the water courses from diminution, and the irrigation streams from loss, these things can be done.

So say the Canadian Forestry Association will not be necessary. The forests of the country will be as carefully managed as a modern farm or factory. There will be no waste, no fire, no over-cutting, and the coming generations for the benefit of the

But at the present time the Association is needed—needed badly. Great as . . . been the progress in forestry matters in the past few years, there still remains the fact that our people are burning their lands as unplanted, our people wasteful.

The Association advocates—

1. The reforestation of the public domain, so that lands unsuitable for agriculture may be reserved for timber production.
2. The conservation of the forests for their influence on climate, soil and water supply.
3. The promotion of judicious methods in dealing with forests and woodlands.
4. Tree planting on the plains and on streams and highways.
5. Reforestation wherever advisable.
6. The collection and dissemination of information bearing on the forest problem.

Before us lies a great inertia to be overcome. How long will it take

play at his funeral.

The leader was surprised and flattered.

Is that so? he asked.

Yes, responded the other, he said he wanted everybody in the place to be sorry that he died.

Yes, my dear fellow, every man has his price—

Oh, indeed! And what do you think is mine?

Oh, you just give yourself away.

Bacon's mother appears to have kept
